

## TECADUR PBT UD blue - Stock Shapes (rods, plates, tubes)

### Chemical Designation

PBT (Polybutylene terephthalate)

### Colour

blue opaque

### Density

1.56 g/cm<sup>3</sup>

### Fillers

detectable filler

### Main features

- resistant to cleaning agents
- good chemical resistance
- food grade blue
- good dimensional stability
- good impact strength
- metal detectable
- x-ray opaque

### Target Industries

- food engineering
- food processing
- conveyor technology
- packaging and paper machinery

### Mechanical properties

|                                       | parameter                  | value       | unit                             | norm                 | comment |
|---------------------------------------|----------------------------|-------------|----------------------------------|----------------------|---------|
| Tensile strength                      | 50mm/min                   | 62          | MPa                              | DIN EN ISO 527-2     |         |
| Modulus of elasticity (tensile test)  | 1mm/min                    | 3500        | MPa                              | DIN EN ISO 527-2     | 1)      |
| Tensile strength at yield             | 50mm/min                   | 62          | MPa                              | DIN EN ISO 527-2     |         |
| Elongation at yield (tensile test)    | 50mm/min                   | 7           | %                                | DIN EN ISO 527-2     |         |
| Elongation at break (tensile test)    | 50mm/min                   | 9           | %                                | DIN EN ISO 527-2     |         |
| Flexural strength                     | 2mm/min, 10 N              | 98          | MPa                              | DIN EN ISO 178       | 2)      |
| Modulus of elasticity (flexural test) | 2mm/min, 10 N              | 3400        | MPa                              | DIN EN ISO 178       |         |
| Compression strength                  | 1% / 2% / 5% 5mm/min, 10 N | 22/41/77    | MPa                              | EN ISO 604           | 3)      |
| Compression modulus                   | 5mm/min, 10 N              | 1600        | MPa                              | EN ISO 604           | 4)      |
| Impact strength (Charpy)              | max. 7,5J                  | 37          | kJ/m <sup>2</sup>                | DIN EN ISO 179-1eU   | 5)      |
| Notched impact strength (Charpy)      | max. 7,5J                  | 4           | kJ/m <sup>2</sup>                | DIN EN ISO 179-1eA   |         |
| Shore hardness                        | D                          | 83          |                                  | DIN EN ISO 868       |         |
| Thermal properties                    | parameter                  | value       | unit                             | norm                 | comment |
| Glass transition temperature          |                            | 39          | °C                               | DIN EN ISO 11357     |         |
| Melting temperature                   |                            | 224         | °C                               | DIN EN ISO 11357     |         |
| Service temperature                   | short term                 | 200         | °C                               |                      | 1)      |
| Service temperature                   | long term                  | 110         | °C                               |                      |         |
| Thermal expansion (CLTE)              | 23-60°C, long.             | 8           | 10 <sup>-5</sup> K <sup>-1</sup> | DIN EN ISO 11359-1;2 |         |
| Thermal expansion (CLTE)              | 23-100°C, long.            | 10          | 10 <sup>-5</sup> K <sup>-1</sup> | DIN EN ISO 11359-1;2 |         |
| Other properties                      | parameter                  | value       | unit                             | norm                 | comment |
| Water absorption                      | 24h / 96h (23°C)           | 0.03 / 0.05 | %                                | DIN EN ISO 62        | 1)      |
| Resistance to hot water/ bases        | -                          | -           | -                                |                      | 2)      |
| Resistance to weathering              | -                          | -           | -                                |                      |         |

Our information and statements reflect the current state of our knowledge and shall inform about our products and their applications. They do not assure or guarantee chemical resistance, quality of products and their merchantability in a legally binding way. Our products are not defined for use in medical or dental implants. Existing commercial patents have to be observed. The corresponding values and information are no minimum or maximum values, but guideline values that can be used primarily for comparison purposes for material selection. These values are within the normal tolerance range of product properties and do not represent guaranteed property values. Therefore they shall not be used for specification purposes. As the properties depend on the dimensions of the semi-finished products and the orientation in the component (esp. in reinforced grades), the material may not be used without a separate testing under individual circumstances. The customer is solely responsible for the quality and suitability of products for the application and has to test usage and processing prior to use. Data sheet values are subject to periodic review, the most recent update can be found at [www.ensingerplastics.com](http://www.ensingerplastics.com). Technical changes reserved.
