---

## 1. Identification of the substance/mixture and of the company/undertaking

**Product identifier:**

TECAFIL PPSU natural,  
TECAFIL PPSU MT blue,  
TECAFIL PPSU MT XRO blue, TECAFIL PPSU MT XRO green, TECAFIL PPSU MT XRO grey,  
TECAFIL PPSU MT XRO red, TECAFIL PPSU MT XRO yellow

**Relevant identified uses of the substance or mixture:**

Plastics/polymer processing (3D- based on Fused Filament Fabrication)

**Details of the supplier of the safety data sheet:**

Ensinger GmbH  
Rudolf-Diesel-Straße 8  
D - 71154 Nufringen  
Tel. +49 7032 819 0  
www.ensingerplastics.com

**Competent person:**

sdb@ensingerplastics.com

---

## 2. Hazards identification

**Classification of the substance or mixture according to Regulation (EC) No 1272/2008 (CLP/GHS):**

The product is not classified as hazardous.

**Label elements:**

Not a hazardous mixture according to Regulation (EC) No 1272/2008.

**Additional information:**

EUH212: Warning! Hazardous respirable dust may be formed when used. Do not breathe dust.  
Product does not need to be labelled in accordance with Article 23 Regulation 1272/2008/EC.

**Other hazards:**

Contact with molten product may cause severe burns.  
The mixture does not contain substances with a content of 0.1% or more that are classified as PBT or vPvB or have endocrine disrupting properties.

## TECAFIL PPSU

### 3. Composition/information on ingredients

**Description of the mixture:**

Mixture based on polyphenylensulfon (PPSU), CAS No 25608-64-4.

Possibly containing anorganic fillers.

Possibly containing additives and processing aids.

**Information on ingredients:**

Stoff	CAS-Nr.	EG-Nr.	REACH-Nr.	VO (EG) Nr. 1272/2008	%
Titandioxid	13463-67-7	236-675-5	01-2119489379-17	Carc. 2; H351 (Einatmen)	0 - 5,0

For full text of hazard statements see section 16.

### 4. First aid measures

**After inhalation:**

After inhalation of thermal decomposition products, remove person from the danger zone. Oxygen supply, apply artificial respiration if necessary. Keep quiet, warm and seek medical help.

**After skin contact:**

After contact with molten polymer, immediately cool with cold water for a prolonged time. Remove affected clothing. Do not peel polymer from skin. Cover burns with sterile dressings. Burns caused by molten polymer must be treated in a hospital.

**After eye contact:**

After contact with molten polymer cool immediately with plenty of cold water. Contact an eye specialist.

**After ingestion:**

In case of persistent symptoms seek medical help.

**Most important symptoms and effects, both acute and delayed:**

No hazard is expected under intended use and appropriate handling.

**Indication of any immediate medical attention and special treatment needed:**

Treat symptomatically.

## TECAFIL PPSU

---

### 5. Firefighting measures

**Suitable extinguishing media:**

Water spray, alcohol-resistant foam, carbon dioxide, dry chemical foam.

**Unsuitable extinguishing media:**

Water jet.

**Special hazards arising from the substance or mixture:**

With carbonization and incomplete combustion toxic gases develop, predominantly carbon dioxide and carbon monoxide. The development of further fission and oxidation products is dependent on the conditions of burning. Traces of other toxic substances may develop under certain conditions of burning. The release of sulphur dioxide and sulphur trioxide, hydrogen sulfide, carbon disulfide, styrene, phenol and methane is possible.

**Advice for firefighters:**

If exposed to fumes and carbonization gases during fire-fighting measures, rescue operations and cleanup wear a self-contained breathing apparatus. The product ignites in a flame and continues to burn on removal of the source. In an advanced state of fire, the molten polymer must be cooled with water. Water used to extinguish the fire and fire remainders must be collected and water disposed of, in accordance with local regulations.

---

### 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures:**

Collect product (Danger of slipping).

**Environmental precautions:**

Let not enter surface water and sewage water system.

**Methods and material for containment and cleaning up:**

Mechanical cleaning up.  
Avoid dry sweeping. Use an appropriate suction device for cleaning to avoid the generation of dust.

---

### 7. Handling and storage

**Precautions for safe handling:**

Avoid overheating of material by improper handling. Under high processing temperatures or excessively long residence harmful gases and vapours might develop. Use with adequate ventilation. Local exhaust ventilation should be provided.

General industrial hygiene regulations are to be observed.  
Wash hands before breaks and at the end of workday.  
Food and tobacco should not be kept in the workplace.  
Do not eat, drink or smoke in the workplace.

**Conditions for safe storage, including any incompatibilities:**

The appropriate company regulations for fire prevention are to be followed.

## TECAFIL PPSU

### 8. Exposure controls/personal protection

**Control parameters:**

The general limit for dust is valid.

substance	EC No	CAS No	exposure limit value	biological limit value	comment	source	country (type)
general dust limit value (a-dust)			4 mg/m <sup>3</sup>		respirable fraction	Workplace Exposure Limit (WEL)	UK
general dust limit value (e-dust)			10 mg/m <sup>3</sup>		inhalable fraction	Workplace Exposure Limit (WEL)	UK

**Exposure controls:**

The working area should be well ventilated.

**Respiratory protection:**

If technical measures are insufficient, protective breathing apparatus must be worn. Use dust mask with at least filter type P2 (DIN EN 140/142/143) or filter apparatus with ventilator and helmet or hood, at least TH2P (DIN EN 12941).

**Eye/face protection:**

Safety glasses with side-shields

**Hand protection/skin protection:**

Skin protection should be used (barrier cream containing tanning agent).

### 9. Physical and chemical properties

**Appearance:**

solid (monofilament)

**Melting point/Melting range:**

ca. 220 °C

**Relative density:**

> 1 g/cm<sup>3</sup>

**Flash point:**

N/A (solid)

**Flammability (solid, gas):**

580 - 600 °C

**Vapour pressure:**

N/A (solid)

**Solubility(ies):**

insoluble (water, 20 °C)

**Auto-ignition temperature:**

N/A

**Viscosity:**

N/A (solid)

**Oxidising properties:**

N/A

**Other information:**

No data available.

**Odour/odour threshold:**

product-specific

**Initial boiling point and Boiling range:**

N/A (solid)

**pH (20 °C):**

N/A (solid)

**Evaporation rate:**

N/A

**Upper/lower flammability or explosive limits:**

N/A

**Vapour density:**

N/A

**Partition coefficient: n-octanol/water:**

N/A

**Decomposition temperature:**

> 400 °C

**Explosive properties:**

no data available

## TECAFIL PPSU

---

### 10. Stability and reactivity

**Reactivity:**

No hazardous reactions known when stored and handled according to instructions and used for its intended purpose.

**Chemical stability:**

Product is stable. No hazardous reactions known when stored and handled according to instructions and used for its intended purpose.

**Possibility of hazardous reactions:**

No hazardous reactions known when stored and handled according to instructions.

**Conditions to avoid:**

Do not heat to a temperature above the decomposition temperature.

**Incompatible materials:**

None known.

**Hazardous decomposition products:**

No decomposition and hazardous reactions known when handled according to instructions.

By strong overheating of the material carbon monoxide, phenol, toluene sulphonic acids, sulphur oxide and hydrocarbons can be generated.

---

### 11. Toxicological information

**Acute toxicity:**

With proper use and in accordance with regulations there are no known dangers to health.

Contact with molten product can cause burns.

**Chronic toxicity:**

When used and handled according to specifications, the product does not have any harmful effects.

**Other information:**

In our experience and according to the literature provided to us the product does not cause any noxious effects when used and handled according to regulations.

## TECAFIL PPSU

---

### 12. Ecological information

**Toxicity:**

Data about ecological effects are not available for this product.

**Persistence and degradability:**

No data available.

**Bioaccumulation potential and mobility in soil:**

Biodegradability is not probable due to the consistency as well as the insolubility in water of the product.

**Results of the PBT and vPvB assessment:**

The product does not fulfil the criteria for classification as PBT or vPvB.

**Other adverse effects:**

No relevant information available.

Due to the consistency of the product a disperse distribution in the environment is not likely. Therefore, according to the present state of knowledge negative ecological effects are not expected.

---

### 13. Disposal considerations

**Waste treatment methods:**

Product residues can be recycled or treated in an energy recovery plant.  
When segregated, unpolluted product residues can be recycled mechanically.

**European waste catalogue:**

The unpolluted product has no dangerous properties and is therefore not a hazardous waste within the meaning of regulation on the European List of wastes.

**Waste codes/waste identification:**

The exact assignment to a waste code must be carried out source- and use-related.  
Proposals for the waste code numbers based on the probable use of the unpolluted product:  
07 02 13 (waste plastic)  
20 01 39 (plastics from separately collected fractions)

**Packaging:**

Uncontaminated or cleaned packaging can be recycled without verification.

## Safety data sheet

according to Regulation (EC) No 1907/2006

# TECAFIL PPSU

---

## 14. Transport information

Not classified as dangerous in the meaning of transport regulations.

**UN number:**

Not applicable.

**UN proper shipping name:**

Not applicable.

**Transport hazard class(es):**

Not applicable.

**Packing group:**

Not applicable.

**Environmental hazards:**

Not applicable.

**Special precautions for user:**

No special precautions.

**Transport in bulk according to Annex II of Marpol and the IBC Code:**

Not applicable.

---

## 15. Regulatory information

**Safety, health and environmental regulations/legislation specific:**

The mixture does not contain any substance meeting the criteria in Article 57 and identified in accordance with Article 59(1).

**EU regulations:**

No dangerous substance in the sense of EU-directives.

**Chemical safety assessment:**

A chemical safety assessment has not been carried out.

**National regulations:**

Storage class VCI/TRGS 510 (Germany): 11 (flammable solid materials)

Water hazard class (Germany): not hazardous to water (Kenn-Nr. 766)

## TECAFIL PPSU

---

### 16. Other information

**The full text of hazard statements:**

EUH212: Warning! Hazardous respirable dust may be formed when used. Do not breathe dust.

H351: Suspected of causing cancer by inhalation.

**Indication of changes:**

Vertical lines in the left margin indicate changes compared to the previous version.

Status as of 03/23.

Previous version V01.0, status as of 11/20.
